**TABLE TRAC INC. AWARDED LARGEST CONTRACT TO DATE**

**MINNEAPOLIS, Minn., August 6, 2007,- Table Trac, Inc. (TBTC.OB),**

a Gaming Systems provider to small and mid-sized casinos, whose patented Table Trac system monitors the operation of casino floors, is pleased to announce that it has contracted to provide its comprehensive gaming floor system solution to the Otoe-Missouria casinos in Oklahoma.

Table Trac will be installing its fully integrated casino systems into multiple casino locations on a two-phase schedule. Support for gaming machines in this operation will include both class II as well as class III games.

Dallas Teerlink, General Manager for the Otoe-Missouria stated: "We have pursued extensive investigation and due diligence efforts in our evaluation of all of the systems options available to us, and found Table Trac/Casino Trac to be the only system that is fully functional with our unique combination of Class II and Class III games. Table Trac has all of the features we were looking for, and still offered the best terms and pricing."

"This is our third customer in Oklahoma and our successful efforts there are reflected in the support and comments from the GM's, department heads, accounting and auditors, IT, and operators. We are absolutely committed to making sure that our customers are happy with their choice of Table Trac," stated Robert Siqveland, Director of Marketing.

Chad Hoehne, President and CEO of Table Trac commented: "We like to see our relationship with our customers as partners. Working together we continue to develop our proven and dependable casino system to conform to the business model that the Oklahoma casinos present. We look forward to working with the Otoe-Missouria team."

**About Table Trac, Inc. - [www.tabletrac.com](http://www.tabletrac.com)**

Table Trac, based in Minnetonka, Minn., has developed a patented real-time system that automates and monitors the operations of casino gaming floors. It provides casino management with comprehensive information seamlessly into an automated environment that provides instant information about the entire casino's table gaming status, along with slot machine play, players club, accounting, banking and games security.
