TABLE TRAC INC. AWARDED ANOTHER OKLAHOMA CONTRACT

MINNEAPOLIS, Minn., Dec 7, 2007,- Table Trac, Inc. (TBTC.OB),

a Gaming Systems provider to small and mid-sized casinos, whose patented Table Trac system monitors the operation of casino floors, is pleased to announce that it has contracted to provide its comprehensive gaming floor system solution to the Ottawa Tribe of Oklahoma, dba High Winds Casino.

Close on the heels of its best performing quarterly report in company history, Table Trac Inc. has secured the sale of its systems products to the High Winds Casino, located in Miami, Oklahoma. The system for High Winds will be the 6th Table Trac installation utilizing its new S2S Class II communications architecture working together with traditional Class III games.

Chad Hoehne, President of Table Trac/Casino Trac stated: "We feel privileged to have been selected as the systems company by Ottawa High Winds Casino. We have certainly been impressed by their great facility, the strong and experienced leadership, and the staff. We are excited to be part of this organization's growth."

Frank Haas, General Manager of High Winds responded: "We look forward to utilizing

the full capacity of Table Trac's comprehensive system capabilities. We have been diligent in our efforts to evaluate all of the available casino management systems options in Oklahoma and concluded that Table Trac/Casino Trac is the only system that is fully functional with our combination of Class II and Class III games. Table Trac has all of the features we were looking for, and still offered the best pricing structure.”

“Our reputation for reliable product performance and support continues to develop in Oklahoma. Our highly qualified and reputable marketing staff there, headed by Randy Carnett, is building this reputation on the foundation of, 'Judge us by what we do, not what we say',” claims Bob Siqveland, Director of Marketing.

About Table Trac, Inc. - www.tabletrac.com

Table Trac, based in Minnetonka, Minn., has developed a patented real-time system that automates and monitors the operations of casino gaming tables. It provides casino management with comprehensive information including linking table games activity seamlessly into an automated environment that provides instant information about the entire casino's table gaming status, along with slot machine play, players club, accounting, banking and games security.

Some statements contained herein are forward-looking statements. The company's actual results may vary materially from the forward-looking statements made above due to important factors including, but not limited to, variability of order flow, future economic conditions, competitive products and pricing, new product development, the delivery of product under existing contracts and other factors. Additional information concerning factors that could cause actual results to differ materially from those in the forward-looking statements made above is contained in the following documents on file with the U.S. Securities and Exchange Commission: the company's Registration Statement on Form SB-10, filed January 13, 2000; its Form 10-KSB for the year ended December 31, 2006; and Quarter Reports for Form 10-QSB.
